

Sprint 3 Report Template

FileOpen

Team Maverick

Scrum meeting Times:

Mon-Thursday: 8:30 - 8:45pm

Fridays: 6pm - 6:15pm

Sat: 5:30 - 6:00pm

Sun: 9:00 - 2:00am

Actions to Stop Doing:

- Slacking with tasks
- Not show up to scrum meetings
- Lack of communication
- Going absent for days at a time
- All of the above causes the team to fall behind because everyone needs to be up to speed and together

Actions to Start Doing:

- Attend any virtual or in-person meeting on time
 - If there is a problem let the team know beforehand
 - In person meetings it's understandable due to transportation, work, or school
 - Virtual meetings no excuse
- Create next scrum meeting before leaving current scrum
- Start formally following scrum standards during meeting:
 - What you did yesterday?
 - What did you do today?
 - What issues/problems are you having?
- Use *Slack* for communication
- If you have ANY question Slack a team member and/or text someone
 - It's okay to be confused; it's not okay to use it as an excuse

Actions to Keep Doing:

- Keep using Slack, Git and Trello
 - Check Slack every morning for any updates from team

- Commit more frequently to avoid losing work
- Be respectful of everyone's time and don't keep people waiting on you

Work Completed

- Make static bubble Chart component in vue app
- Integrate bar chart into vue
- Add force simulation to bubble chart
- Spatially animate categorization bubble chart
- Add color to bubble chart
- Transfer Geomap code to vue
- Collect number of sessions per user on a document
